INTRODUCTION

This is the third printing of a Where to Go Camping guide by the Michigamea Lodge 110 in recent years. It is much more detailed than past editions, but is still a work in progress. Information not yet updated in this edition will be verified and corrected in future editions. Scout Councils with a superscript “R” have been revised with information from that Council. Hiking trail information is now included in this edition, but not all trails have been updated. Troops are requested to contact the Lodge with any corrections, or additional material they feel should be included in the next edition. The following form may be used.
